## **CHAPTER 51: MINIMUM STANDARDS OF OPERATION FOR PSYCHIATRIC RESIDENTIAL TREATMENT FACILITIES**

### **Subchapter 1 General: Legal Authority**

Rule 51.1.1 **Adoption of Rules, Regulations, and Minimum Standards.** By virtue of authority vested in it by Mississippi Code Annotated, 43-11-1 through 43-11-27 (Supplemented 1986), The Mississippi Department of Health does hereby adopt and promulgate Rules, Regulations, and Minimum Standards for Institutions for the Aged and Infirm which includes Skilled Nursing Facilities, Intermediate Care Facilities, Personal Care Homes.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.1.2 The 1990 Legislature amended the code to include Psychiatric Residential Treatment Facilities as an institution for the Aged or Infirm.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.1.3 **"Psychiatric Resident Treatment Facility"** means any non-hospital establishment with permanent facilities which provides a twenty-four (24) hour program of care by qualified therapists including, but not limited to, duly licensed mental health professionals, psychiatric mental health nurse practitioners, psychiatrists, psychologists and licensed certified social workers, for emotionally disturbed children and adolescents referred to such facility by a court, local school district or by the Department of Human Services, who are not in an acute phase of illness requiring the services of a psychiatric hospital, and are in need of such restorative treatment services. For purposes of this paragraph, the term "emotionally disturbed" means a condition exhibiting one or more of the following characteristics over along period of time and to a marked degree, which adversely affects educational performance:

1. An inability to learn which cannot be explained by intellectual, sensory or health factors;
2. An inability to build or maintain satisfactory relationships with peers and teachers;
3. Inappropriate types of behavior or feelings under normal circumstances;
4. A general pervasive mood of unhappiness or depression; or
5. A tendency to develop physical symptoms or fears associated with personal or school problems.

### **Subchapter 2 TYPES OF LICENSE**

Rule 51.2.1 **Regular License.** A license shall be issued to each institution for the aged or infirm that meets the requirements as set forth in these regulations. The license shall show the classification (Skilled Nursing Facility, Intermediate Care Facility, Personal Care Home, and Psychiatric Residential Treatment Facility).

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.2.2 **Provisional License.** Within its discretion, the Mississippi Department of Health may issue a provisional license when a temporary condition of non-compliance with these regulations exists in one or more particulars. A provisional license shall be issued only if the Department of Health is satisfied that preparations are being made to qualify for a regular license and that the health and safety of patients will not be endangered meanwhile. One condition on which a provisional license may be issued is as follows: A new institution for the aged or infirm may be issued a provisional license prior to opening and subsequent to meeting the required minimum staffing personnel. The license issued under this condition shall be valid until the issuance of a regular license or March 31 following date of issuance whichever may be sooner. A provisional license may be reissued only if it is satisfactorily proven to the Department of Health that efforts are being made to fully comply with these regulations by a specified time.

Rule 51.3.3 **Name of Institution.** Every institution for the aged or infirm shall be designated by a permanent and distinctive name which shall be used in applying for a license and shall not be changed without first notifying the licensing agency in writing and receiving written approval of the change from the licensing agency. Such notice shall specify the name to be discontinued as well as the new name proposed. The words "hospital", "sanatorium", "sanatarium", "clinic", or any other word which would reflect a different type of institution shall not appear in the title of an

institution for the aged or infirm. In addition to these words, the word "nursing" shall not appear in the title of a Personal Care Home. Only the official name by which the institution is licensed shall be used in telephone listing, on stationery, in advertising, etc. Two or more facilities shall not be licensed under similar names in the same vicinity.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.3.4 **Number of Beds.** Each application for licensure shall specify the maximum number of beds in the institution for the aged or infirm. The maximum number of beds for which the facility is licensed shall not be exceeded.

#### **Subchapter 4 LICENSING**

Rule 51.4.1 **Issuance of License.** All licenses issued by the Department of Health shall set forth the name of the facility, the location, the name of the licensee, the classification of the institution, the type of building, the bed capacity for which the institution is licensed, and the license number.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.4.2 **Posting of License.** The license shall be posted in a conspicuous place on the licensed premises and shall be available for review by an interested person.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.4.3 **License Not Transferable.** The license for an institution for the aged or infirm is not transferable or assignable to any other person except by written approval of the licensing agency and shall be issued only for the premises named in the application. The license shall be surrendered to the Department of Health on change of ownership, licensee, name or location of the institution, or in the event that the institution ceases to be operated as an institution for the aged or infirm. In event of change of ownership, licensee, name or location of the institution, a new application shall be filed.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.4.4 **Expiration of License.** Each license shall expire on March 31 following the date of issuance.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.4.5 **Renewal of License.** License shall be renewable by the licensee.

1. Filing of an application for renewal of licensee;

2. Submission of appropriate licensure renewal fee;
3. Approval of annual report by the licensing agency; and
4. Maintenance by the institution of minimum standards in its physical facility, staff, services, and operation as set forth in these regulations.

## **Subchapter 18           ADMISSION AND DISCHARGE CRITERIA**

Rule 51.18.1 Only a psychiatrist on the staff of the facility shall determine whether admission of a child/adolescent to the psychiatric residential facility is appropriate. The decision shall be based upon either a direct examination conducted personally by the psychiatrist or upon the psychiatrist's review of the findings of an appropriately trained and trusted clinician. When the admitting psychiatrist is not a child psychiatrist, consultation with a child psychiatrist regarding the advisability of admission shall be required.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.18.2 Each child/adolescent psychiatric residential treatment facility shall maintain written admission and discharge criteria which are consistent with its goals and objectives and state rules and regulations and which are subject to approval of the Mississippi Department of Health.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.18.3 The admission criteria must, at a minimum, provide that the child/adolescent meet each of the following criteria:

1. Identification of a serious and persistent psychopathology as evidenced by:
  - a. Severe thought disorder, or
  - b. Severe mood disorder, or
  - c. Severe anxiety/panic disorder, or
  - d. Moderate thought disorder in conjunction with an impulse control disorder or a deficit in activities of daily living skills, or
  - e. Severe conduct disorder in conjunction with an impulse control disorder or a deficit in activities of daily living skills, or
  - f. Severe personality disorder in conjunction with an impulse control disorder or a deficit in activities of daily living skills, or

- g. Complex, concurrent disorders (such as a physiologic disorder or other psychiatric disorder, including but not limited to an eating disorder or a substance abuse disorder), or
  - h. Any combination of the above;
2. Intelligence Quotient equal to or greater than 60 unless medical documentation supports that suppressed score is due to the patient's "emotional disorder".
  3. Attainment of at least the sixth birthday but no more than the twenty-first birthday; and
  4. Presentation of no likelihood of serious harm to self or others, and
  5. Failure of treatment at a lower level of care or available less restrictive treatment resources must have been considered and determined to be not available or not appropriate to the patient's needs.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.18.4 The admitting psychiatrist shall document the reasons why a lower level of care is not medically appropriate, which may include:

1. Complex case because of one or more complicating concurrent disorders requiring a higher level of care to provide medically necessary evaluation or active treatment, or
2. Lack of access, or
3. Inadequate support (family and/or school and/or community) to use a lower level of care, or
4. Patient lives alone, or lives with family members who are significantly impaired by psychiatric or substance abuse disorders, or
5. Persistent hampering of evaluation or treatment by family, making evaluation or treatment in an outpatient setting ineffective, or
6. Patient behavior which persists despite appropriate treatment in an outpatient setting and which either seriously disrupts family life or which arouses antagonism towards the patient, making treatment in an outpatient setting ineffective.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.18.5 Any additional admission criteria must relate to observable characteristics of the child/adolescent. Such criteria may include age and gender.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.18.6 The discharge criteria must relate to the continued need of the individual child/adolescent for services in a residential treatment facility. Age in and of itself shall not be an appropriate basis for discharge from a residential treatment facility except that no resident may remain in a residential treatment facility after attaining the age of twenty-two.

### **Subchapter 30        SPECIAL TREATMENT PROCEDURES**

Rule 51.30.1 Treatment procedures that require special justification shall include, but not necessarily be limited to, the following:

1. The use of restraint;
2. The use of seclusion;
3. The use of electroconvulsive therapy and other forms of convulsive therapy;
4. The performance of psychosurgery or other surgical procedures for the intervention in, or alteration of, a mental, emotional, or behavioral disorder;
5. The use of behavior modification procedures that use painful stimuli;
6. The use of unusual medications and investigational and experimental drugs;

7. The prescribing and administering of drugs for maintenance use that have abuse potential (usually considered to be Schedule II drugs), and drugs that are known to involve substantial risk or to be associated with undesirable side effects; and
8. The use of research projects that involve inconvenience or risk to the patient.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.30.2 The rationale for using special treatment procedures shall be clearly stated in the patient's record.

1. When appropriate, there shall be evidence in the patient's record that proposed special treatment procedures have been reviewed before implementation by the head of the professional staff and or his or her designee.
2. The plan for using special treatment procedures shall be consistent with the patient's rights and the facility's policies governing the use of such procedures.
3. The clinical indications for the use of special treatment procedures shall be documented in the patient's record.
4. The clinical indications for the use of special treatment procedures shall outweigh the known contraindications.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.30.3 The facility shall have written policies and procedures that govern the use of restraint or seclusion.

1. The use of restraint or seclusion shall require clinical justification and shall be employed only to prevent a patient from injuring himself or others, or to prevent serious disruption of the therapeutic environment. Restraint or seclusion shall not be employed as punishment or for the convenience of staff.
2. The rationale for the use of restraint or seclusion shall address the inadequacy of less restrictive intervention techniques.
3. To ascertain that the procedure is justified, a physician shall conduct a clinical assessment of the patient before writing an order for the use of restraint or seclusion.
4. A written order from a physician shall be required for the use of restraint.
5. A written order from a physician shall be required for the use of seclusion for longer than one hour.
6. Written orders for the use of restraint or seclusion shall be time-limited.

7. The written approval of the head of the professional staff and/or his or her designee shall be required when restraint or seclusion is utilized for longer than 24 hours.
8. PRN orders shall not be used to authorize the use of restraint or seclusion.
9. All uses of restraint or seclusion shall be reported daily to the head of the professional staff and/or his or her designee.
10. The head of the professional staff and/or his or her designee shall review daily all uses of restraint or seclusion and investigate unusual or possibly unwarranted patterns of utilization.
11. Staff, who implement written orders for restraint and seclusion shall have documented training in the proper use of the procedure for which the order was written.
12. Restraint or seclusion shall not be used in a manner that causes undue physical discomfort, harm, or pain to the patient.
13. Appropriate attention shall be paid every 15 minutes to a patient in restraint or seclusion, especially in regard to regular meals, bathing, and use of the toilet.
14. There shall be documentation in the patient's record that such attention was given to the patient.
15. Under the following conditions, restraint or seclusion may be employed in an emergency without a written order from a physician:
  16. The written order for restraint or seclusion is given by a member of the professional staff who is qualified by experience and training in the proper use of the procedure for which the order is written;
  17. The professional staff member writing the order has observed and assessed the patient before writing the order; and
  18. The written order of the physician who is responsible for the patient's medical care is obtained within not more than 24 hours after initial employment of the restraint or seclusion.

Rule 51.30.4 The facility shall have written policies and procedures that govern the use of time-out and the documentation of such procedures in the case record.

1. The use of time-out shall require clinical justification and shall not be employed for the convenience of staff.

2. Time-out procedures shall meet the following requirements:
3. A child/adolescent placed in time-out shall be under visual observation at intervals of fifteen minutes or less while in time-out;
4. A locked door shall not be a component of time-out;
5. Time-out shall be limited to a maximum of thirty minutes at one time for a child age ten years or under and shall be limited to a maximum of sixty minutes at one time for an adolescent age eleven years or older; and
6. No child/adolescent shall be in time-out for more than four hours in any 24 hour period.

## **Subchapter 31      PATIENT RECORDS**

Rule 51.31.1 A patient record shall be maintained, in accordance with accepted professional principles, for each patient admitted for care in the facility.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.31.2 Such records shall be kept confidential and only authorized personnel shall have access to the record. Staff members and other persons having access to patient records shall be required to abide by the written policies regarding confidentiality of patient records and disclosure of information in the record, as well as all applicable federal, state, and local laws, rules and regulations.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.31.3 The facility shall have written policies and protect the confidentiality of patient records and govern the disclosure of information in the records. The policies and

procedures shall specify the conditions under which information on applicants or patients may be disclosed and the procedures for releasing such information.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.31.4 A patient of his or her authorized representative may consent to the release of information provided that written consent is given on a form containing the following information:

1. Name of patient;
2. Name of program;
3. The name of the person, agency or organization to which the information is to be disclosed;
4. The specific information to be disclosed;
5. The purpose for the disclosure;
6. The date the consent was signed and the signature of the individual witnessing the consent;
7. The signature of the patient, parent, guardian or authorized representative; and
8. A notice that the consent is valid only for a specified period of time.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.31.5 The written consent of a patient, or his or her authorized representative, to the disclosure of information shall be considered valid only if the following conditions have been met:

1. The patient or the representative shall be informed, in a manner calculated to assure his or her understanding, of the specific type of information that has been requested and, if known, the benefits and disadvantages of releasing the information;
2. The patient or the representative shall give consent voluntarily;
3. The patient or the representative shall be informed that the provision of services is not contingent upon his or her decision concerning the release of information; and
4. The patient's consent shall be acquired in accordance with all applicable federal, state, and local laws, rules and regulations.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.31.6 Every consent for release of information, the actual date the information was released, the specific information released, and the signature of the staff member who released the information shall be made a part of the patient record.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.31.7 In a life-threatening situation or when an individual's condition or situation precludes the possibility of obtaining written consent, the facility may release pertinent medical information to the medical personnel responsible for the individual's care without the individual's consent and without the authorization of the chief executive officer or a designee, if obtaining such authorization would cause an excessive delay in delivering treatment to the individual.

1. When information has been released under emergency conditions, the staff member responsible for the release of information shall enter all pertinent details of the transaction into the individual's record including at least the following items:
2. The date the information was released;
3. The person to whom the information was released;
4. The reason the information was released;
5. The reason written consent could not be obtained; and
6. The specific information released.
7. The patient or applicant shall be informed that the information was released as soon as possible after the release of information.

## **Subchapter 32            PRESERVATION AND STORAGE**

Rule 51.32.1 Records shall be preserved, either in the original or by microfilm, for a period of time not less than that determined by the statute of limitations in the State of Mississippi.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.32.2 Written policies and procedures shall govern the compilation, storage, dissemination, and accessibility of patient records. The policies and procedures shall be designed to assure that the facility fulfills its responsibility to safeguard

and protect the patient record against loss, unauthorized alteration, or disclosure of information; to assure that each patient record contains all required information; to uniformity in the format and forms in use in patient records; to require entries in patient records to be dated and signed.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.32.3 The facility shall provide adequate facilities for the storage, processing, and handling of patient records, including suitably locked and secured rooms and files. When a facility stores patient data on magnetic tape, computer files, or other types of automated information systems, adequate security measures shall prevent inadvertent or unauthorized access to such data. A written policy shall govern the disposal of patient records. Methods of disposal shall be designed to assure the confidentiality of information in the records.

## **Subchapter 55         DIETS**

Rule 51.55.1 There shall be a systematic record of diets, correlated when appropriate, with the medical records. The dietitian shall have available an up-to-date manual of regimens for all therapeutic diets, approved jointly by the dietitian and medical staff, which is available to dietary supervisory personnel. Diets served to patients shall be in compliance with these established diet principles:

1. The diet manual shall be reviewed annually and revised as necessary by a qualified dietitian, and shall be dated to identify the time of the review;
2. Revisions to the diet manual shall be approved by the facility's physician;
3. The diet manual should be used to standardize the ordering of diets;
4. The policies and procedures shall provide for dietetic counseling;
5. The nutritional deficiencies of any diet in the manual shall be indicated;
6. The policies and procedures shall require the recording of dietetic orders in the patient's record;
7. The policies and procedures shall require the recording of all observations and information pertinent to dietetic treatment in the patient's record by the food service supervisor or dietitian;
8. The policies and procedures shall require the use of standards for nutritional care in evaluating the nutritional adequacy of the patient's diet and in ordering diet supplements. The current Recommended Dietary Allowances of the Food and

Nutrition Board of the National Research Council of the National Academy of Sciences is suggested as a guide in developing these standards;

9. The policies and procedures shall describe the methods for assuring that each patient on a special diet received the prescribed diet regimen;
10. The policies and procedures shall provide for altering diets or diet schedules as well as for discontinuing diets;
11. Dietetic service personnel shall conduct periodic food acceptance studies among the patients and should encourage them to participate in menu planning;
12. The results of food acceptance studies should be reflected in revised menus; and
13. All menus shall be approved by a qualified dietitian.

## **Subchapter 76            RESEARCH (OPTIONAL)**

Rule 51.76.1 When a facility or program conducts or participates in research with human subjects, policies shall be designed and written to assure that rigorous review is made of the merits of each research project and of the potential effects of the research procedures on the participants.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.76.2 An interdisciplinary research review committee shall review all research projects utilizing human subjects. The committee shall be either a permanent standing committee or a committee convened on an as-needed basis.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.76.3 Members of the research review committee shall be qualified by training and experience to serve on the committee.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.76.4 Individuals who have appropriate experience in the research areas being reviewed shall be included on the committee.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.76.5 A majority of the committee members should be individuals who are not directly associated with the research project under consideration.

Rule 51.76.7 Prior to the authorization and initiation of each research project, the research committee shall conduct a detailed review of the project

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.76.8 This review shall include the following:

1. The adequacy of the research design;
2. The qualifications of the individuals responsible for coordinating the project;
3. The benefits of the research in general;
4. The benefits and risks to the participants;
5. The benefits to the facility;
6. The compliance of the research design with accepted ethical standards;
7. The process to be used to obtain informed consent from participants; and
8. The procedures for dealing with any potentially harmful effects that may occur in the course of the research activities.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.76.9 This initial review shall form the basis for a written report that shall be submitted by the committee to the chief executive officer.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.76.10 All individuals asked to participate in a research project shall be given the following information before being asked to give their consent:

1. A description of the benefits to be expected;
2. A description of the potential discomforts and risks;
3. A description of alternative services that might prove equally advantageous to them; and
4. A full explanation of the procedures to be followed, especially those that are experimental in nature.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.76.11 If the investigator does not wish to fully disclose the purpose, nature, expected outcome, and implications of the research to the participants before it begins, the investigator shall clearly and rigorously justify to the research review committee

that such disclosure is inadvisable and that failure to give full disclosure is not detrimental to the participants. Under such conditions, disclosure may be deferred until the research project is completed.

**Subchapter 77            PHYSICAL PLANT MANAGEMENT:    INFECTION CONTROL**

Rule 51.77.1 Because infections, acquired in a facility or brought into a facility from the community, are potential hazards for all persons having contact with the facility, there shall be an infection control program. Effective measures shall be developed to prevent, identify, and control infections.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.77.2 Written policies and procedures pertaining to the operation of the infection control program shall be established, reviewed at least annually, and revised as necessary.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.77.3 A practical system shall be developed for reporting, evaluating, and maintaining records of infections among patients and personnel. This system shall include assignment of responsibility for the ongoing collection and analysis of data, as well as for the implementation of required follow-up action. Corrective action taken on the basis of records and reports of infections and infection potentials among patients and personnel shall be documented.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.77.4 All new employees shall be instructed in the importance of infection control and personal hygiene, and in their responsibility in the infection control program. There shall be documentation that in-service education in infection prevention and control is provided to employees in all services and program components.

## **Subchapter 78            MEDICAL WASTE**

Rule 51.78.1 **"Infectious medical wastes"** include solid or liquid wastes which may contain pathogens with sufficient virulence and quantity such that exposure to the waste by a susceptible host has been proven to result in an infectious disease. For purposes of this Regulation, the following wastes shall be considered to be infectious medical wastes:

1. Wastes resulting from the care of patients and animals who have Class I and (or) II diseases that are transmitted by blood and body fluid as defined in the rules and regulations governing reportable diseases, as defined by the Mississippi Department of Health;
2. Cultures and stocks of infectious agents; including specimen cultures collected from medical and pathological laboratories, cultures and stocks of infectious agents from research and industrial laboratories, wastes from the production of biological, discarded live and attenuated vaccines, and culture dishes and devices used to transfer, inoculate, and mix cultures;

3. Blood and blood products such as serum, plasma, and other blood components;
4. Pathological wastes, such as tissues, organs, body parts, and body fluids that are removed during surgery and autopsy;
5. Contaminated carcasses, body parts, and bedding of animals that were exposed to pathogens in medical research;
6. All discarded sharps (e.g., hypodermic needles, syringes, Pasteur pipettes, broken glass, scalpel blades) which have come into contact with infectious agents;
7. Other wastes determined infectious by the generator or so classified by the Mississippi Department of Health.

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.78.2 "Medical Waste" means all waste generated in direct patient care or in diagnostic or research areas that is non-infectious but aesthetically repugnant if found in the environment."

*SOURCE: Miss. Code Ann. §43-11-13*

Rule 51.78.3 All generators of infectious medical waste and medical waste shall have a medical waste management plan that shall include, but is not limited to, the following:

1. **Storage and Containment of Infectious Medical Waste and Medical Waste:**
  - a. Containment of infectious medical waste and medical waste shall be in a manner and location which affords protection from animals, rain and wind, does not provide a breeding place or a food source for insects and rodents, and minimizes exposure to the public.
  - b. Infectious medical waste shall be segregated from other waste at the point of origin in the producing facility.
  - c. Unless approved by the Mississippi Department of Health or treated and rendered non-infectious, infectious medical waste (except for sharps in approved containers) shall not be stored at a waste producing facility for more than seven days above a temperature of 6 C (38F). Containment of infectious medical waste at the producing facility is permitted at or below a temperature of 0 C (32F) for a period of not more than 90 days without specific approval of the Mississippi Department of Health.
  - d. Containment of infectious medical waste shall be separate from other wastes. Enclosures or containers used for containment of infectious medical waste shall be so secured so as to discourage access by unauthorized persons and shall be marked with prominent warning signs on, or adjacent to, the exterior of entry doors, gates, or lids. Each container shall be prominently labeled with

a sign using language to be determined by the Department and legible during daylight hours.

- e. Infectious medical waste, except for sharps capable of puncturing or cutting, shall be contained in double disposable plastic bags or single bags (1.5 mills thick) which are impervious to moisture and have a strength sufficient to preclude ripping, tearing, or bursting under normal conditions of usage. The bags shall be securely tied so as to prevent leakage or expulsion of solid or liquid waste during storage, handling, or transport.
- f. All bags used for containment and disposal of infectious medical waste shall be of a distinctive color or display the Universal Symbol for infectious waste. Rigid containers of all sharps waste shall be labeled.
- g. Compactors or grinders shall not be used to process infectious medical waste unless the waste has been rendered non-infectious. Sharps containers shall not be subject to compaction by any compacting device except in the institution itself and shall not be placed for storage or transport in a portable or mobile trash compactor.
- h. Infectious medical waste and medical waste contained in disposable containers as prescribed above, shall be placed for storage, handling, or transport in disposable or reusable pails, cartons, drums, or portable bins. The containment system shall be leak-proof, have tight-fitting covers and be kept clean and in good repair.
- i. Reusable containers for infectious medical waste and medical waste shall be thoroughly washed and decontaminated each time they are emptied by a method specified by the Mississippi Department of Health, unless the surfaces of the containers have been protected from contamination by disposable liners, bags, or other devices removed with the waste, as outlined in I.E.
- j. Approved methods of decontamination include, but are not limited to, agitation to remove visible soil combined with one or more of the following procedures:
  - i. Exposure to hot water at least 180 F for a minimum of 15 seconds.
  - ii. Exposure to a chemical sanitizer by rinsing with or immersion in one of the following for a minimum of 3 minutes:
    - a. Hypochlorite solution (500 ppm available chlorine);
    - b. Phenolic solution (500 ppm active agent);
    - c. Iodoform solution (100 ppm available iodine); and
    - d. Quaternary ammonium solution (400 ppm active agent).

2. Reusable pails, drums, or bins used for containment of infectious waste shall not be used for containment of waste to be disposed of as non infectious waste or for other purposed except after being decontaminated by procedures as described in part (10) of this section.
  - a. Trash chutes shall not be used to transfer infectious medical waste.
  - b. Once treated and rendered non-infectious, previously defined infectious medical waste will be classified as medical waste and may be land-filled in an approved landfill.
3. Treatment or disposal of infectious medical waste shall be by one of the following methods:
  - a. By incineration in an approved incinerator which provides combustion of the waste to carbonized or mineralized ash.
  - b. By sterilization by heating in a steam sterilizer, so as to render the non-infectious.
4. Infectious medical waste so rendered non-infectious shall be disposable as medical waste. Operating procedures for steam sterilizers shall include, but not be limited to, the following:
  - a. Adoption of standard written operating procedures for each steam sterilizer including time, temperature, pressure, type of waste, type of container(s), closure on container(s), pattern of loading, water content, and maximum load quantity.
  - b. Check or recording and/or indicating thermometers during each complete cycle to ensure the attainment of a temperature of 121 C (250 F) for one-half hour or longer, depending on quantity and density of the load, in order to achieve sterilization of the entire load. Thermometers shall be checked for calibration at least annually.
  - c. Use of heat sensitive tape or other device for each container that is processed to indicate the attainment of adequate sterilization conditions.
  - d. Use of the biological indicator *Bacillus stearothermophilus* placed at the center of a load processed under standard operating conditions at least monthly to confirm the attainment of adequate sterilization conditions.
  - e. Maintenance of records of procedures specified in (a), (b), (c) and (d) above for period of not less than a year.
  - f. By discharge to the approved sewerage system if the waste is liquid or semi-liquid, except as prohibited by the Mississippi Department of Health.

- g. Recognizable human anatomical remains shall be disposed of by incineration or internment, unless burial at an approved landfill is specifically authorized by the Mississippi Department of Health.
  - h. Chemical sterilization shall use only those chemical sterilants recognized by the US Environmental Protection Agency, Office of Pesticides and Toxic Substances. Ethylene oxide, glutaraldehyde, and hydrogen peroxide are examples of sterilants that, used in accordance with manufacturer recommendation, will render infectious waste non-infectious. Testing with *Bacillus subtilis* spores or other equivalent organisms shall be conducted quarterly to ensure the sterilization effectiveness of gas or steam treatment.
5. Treatment and disposal of medical waste which is not infectious shall be by one of the following methods:
- a. By incineration in an approved incinerator which provides combustion of the waste to carbonized or mineralized ash.
  - b. By sanitary landfill, in an approved landfill which shall mean a disposal facility or part of a facility where medical waste is placed in or on land, and which is not a treatment facility.

Rule 51.78.4 All the requirements of these standards shall apply, without regard to the quantity of medical waste generated per month, to any generator of medical waste.
